#### 15. Summary of Strategic Plan 2018/2030

The 2030 Agenda of Sustainable Development (SDGs), adopted by the member states of the United Nations in September 2015 are new universal set of goals, targets and indicators to frame national agenda, development plans and programmes by members states over the next 15 years till 2030. These goals are built and expanded on achievements and learning of Millennium Development Goals (MDGs) that the world leaders adopted at the Millennium Summit in 2000 for a period till 2015.

While MDGs aimed at reducing poverty and inequality, SDGs expand these and other international commitments on ending poverty and achieving equality everywhere, leaving no one behind. The 2030 Agenda for Sustainable Development is integrated, indivisible and balance of three dimensions of sustainable development: economic, social and environmental, and poverty eradication is stated as the overarching goal. The goals are integrated and indivisible, global in nature hence universally applicable. SDGs involve a set of 17 universal goals to end poverty, protect the planet, and ensure prosperity for all. Each goal has specific targets and there are a total of 169 global targets and 230 global indicators to be achieved by 2030.

We continued putting all of our efforts in providing concrete and direct results to the Participants of all of our programs. ESDO followed the Sustainable Development Goals (SDGs) and considering the SDG goal we addressed in local level through different programs. All of our achievements and significant strides in the field of human and income poverty would not have been as successfully achieved without the active participation of the many actors involved, including the direct participants, duty bearers, development partners, private sector actors, network and alliance members. Through the effective participation, learning sharing, capacity building, proper documentation and appropriate community based

monitoring and feedback mechanism ESDO have achieved a great success and significantly contributed in reducing income and human poverty within the working area of ESDO.
