Eco-Social Development Organization (ESDO)

1. Background

Eco-Social Development Organization (ESDO) has started its journey in 1988 with a noble vision to stand in solidarity with the poor and marginalized people. Being a peoples' centered organization, we envisioned for a society which will be free from inequality and injustice, a society where no child will cry from hunger and no life will be ruined by poverty. Over the last thirty years of relentless efforts to make this happen, we have embraced new grounds and opened up new horizons to facilitate the disadvantaged and vulnerable people to bring meaningful and lasting changes in their lives. During this long span, we have adapted with the changing situation and provided the most time-bound effective services especially to the poor and disadvantaged people. Taking into account the government development policies, we are currently implementing a considerable number of projects and programs including micro-finance program through a community focused and people centered approach to accomplish government's development agenda and Sustainable Development Goals (SDGs) of the UN as a whole. ESDO is one of the most dynamic organizations expanding its development interventions across 283 upazilas under 49 districts of Bangladesh covering over 10 million poor and vulnerable people.

2. Executive Summary

Eco-Social Development Organization (ESDO) continuous its mended for the holistic development of rural populations in the areas of livelihood, skill development, health, education, water and sanitation, nutrition, mother and child health care services, kitchen gardening, growth monitoring, immunizations, arsenic mitigation and the developing needs of marginalized people of Bangladesh from its inception 1988. At the same time, ESDO has been continuing microcredit, social development, food security, disaster management, agricultural development, livestock, fisheries, water resources management, hazardous child labor reduction, counter-trafficking intervention, human rights, adult education, child education, skill development activities for ensuring equitable society free from poverty in ESDOs working area.

ESDO managed the mentioned programs in 2291 Unions, 137 Municipality, 283 Upazilas under 49 districts & 7 City Corporation, 8 Division of Bangladesh, directly reaching more than 10 million poor and vulnerable people. Different need-based programs are aimed to enhancing the capabilities of deprived people in terms of social development, disaster facing, food security, agriculture, gender, nutrition, microfinance, health, environment, rights and governance, education and human development, and with empowering them to solve the problems that affect their lives and to cooperate to resisting oppression and exploitation. The undertaking of such self-initiated and autonomous actions is an important achievement in a context where the deprived people are dependent for their livelihood and social security.

For the last 32 years of development journey, ESDO has been serving with untiring efforts to bring forth and optimum development situation in Bangladesh. During this long time, ESDO has been intended to adapt to the changing situation and provide the most time-fitting services especially for the poor and disadvantaged. The comprehensive software & hardware support package has been dedicated to ensuring, skill development activities, social development, food security, disaster management, agricultural development, livestock, fisheries, water resources management, microcredit, hazardous child labor reduction, counter-trafficking intervention, human rights, adult education, child education, health and nutrition, hygienic sanitation and personal hygiene for the grassroots people while focusing on community motivation and empowerment of people. A community-focused and people-centered approach has been adapted by ESDO while considering the national policy and Sustainable Development Goals (SDGs) as its guiding principle.

For the sake of bringing sustainable food security, skill development, livelihood development, ESDO provides demand-driven and bottom-up services, instead of supply-driven and top-down services, ensuring community participation in every step from planning, through decision-making to implementation and monitoring and follow-up as well as cost-sharing by community people. Maintaining this process ESDO has succeeded in creating a sense of ownership of the programs among the community. This approach has contributed greatly to the sustainability of the program's success.

ESDO has made advocacy programs having major components like ethenic minority rights, gender awareness and women rights, social mobilization, legal aid services, hazardous child labor reduction movement, disaster management, social assistance to Adibashis and extreme minorities, counter-trafficking, etc. along with various promotional activities.

ESDO regularly conducts three types of planning for project activities. These are (i) Strategic Plan (ii) Business Plan (iii) Yearly Plan.

ESDO facilities monitoring considering it as an essential tool for its program management to measure the effectiveness of ESDO programs both on quantitative and qualitative aspects. The effective facilitation of regular monitoring also enables the ESDO management to take necessary correctively measures on its program interventions at the right time. ESDO's all project activities are monitored monthly and quarterly basis by the respective project supervisors besides this ESDO has a group of experienced monitor teams under the guidance of team leaders. The monitor team has monitored the project activities quarterly and submits reports to the Executive Director as well as in monthly

coordination meetings. According to the monitoring findings, the ESDO management undertook action to improve the planned activities.

For ensuring qualitative and quantities program ESDO's all project activities periodically and regularly audited by ESDO's Internal Audit Team. A professional group regularly audited ESDO's entire project under the direct supervision of the Executive Director. As per audit findings, the concerned sectoral coordinators ensure to meet-up their lacking or shortfall within the required period.

ESDO regularly evaluated ESDO's programs and projects through the different period. Mid-term evaluation and final evaluation is mandatory for each program.

ESDO has its transparent financial system as well as comply with the donor's requirement. ESDO maintain both accruals, cash basis accounting, and follow the double-entry accounting system. Keeping accounts both way manually and by software also.

Weekly, monthly, and quarterly reporting systems are established. ESDO can produce and provide reports to the donor as per their requirements.

ESDO believes that efficient staff is a significant parameter of organizational strength. ESDO consider them as the most valuable resources. 5395 staff has been working with ESDO, among them 2729(51%), are male and 2666(49%) are female and Volunteer Staff: 981 Male: 174 Female: 807 of the total staff 92 are working in the central office and the rest 5303 are working under the regional and branch offices.

3. Vision:

We seek an equitable society free from all discriminations.

4. Mission:

Reduction in income poverty and human poverty of the people in our working area through undertaking massive integrated development programs for the poor and marginalized community through service delivery and rights based approach. This includes programs on income generation, improved education, nutrition and health improvement, human rights and good governance. We integrate gender and environmental protection & regeneration as cross-cutting subjects across all the programs. We believe in equity and are actively promoting human rights, dignity and gender equality through building people's social, economic, political, and human capacity. Women in general and children are central to our activities. We seek to ensure quality of services through continuous strengthening of our organizational capacity. Extending our services to the ultra-poor is our main manifesto.

7. Governance

ESDO is governed by a 21 member General Committee (GC). The GC selects a seven-member Executive Committee (EC). The EC provides policy guidelines to the organization. The Member Secretary of the EC designated as Executive Director (ED) oversees the programs and activities and provides required guidance to the staff members to carry out the day-to-day activities in order to achieve individual program objectives as well as to accomplish ESDO's mission and vision as a whole. The Executive Director monitors the program implementation, outcomes and issues through organization's established result based Monitoring, Evaluation and Learning (MEL) system, meetings with different levels of staff and direct visiting programme participants at fields. The progress of project implementation, outcomes and the issues emerged in the previous year are reported and discussed at Executive Committee Meeting. The EC makes decisions and provides future strategic directions to ED. The ED implements the decisions and directions of EC meeting at organization and field level through his staff. Thus a two way decision making and governing process (bottom to up and up to bottom) are maintained in the organization. We organize Annual General Meeting (AGM) in each financial year, where all the members of General Governing Body, Executive Committee, and key staff members attend the meeting. All the achievements, outcomes and emerged issues of the previous year and the decisions made at the EC meeting are presented, discussed and reviewed by the AGM participants and finally approved by the GC members. Yearly budget is also reviewed at AGM and the budget for next year is approved in the AGM. Thus a governance accountability of the organization is ensured.

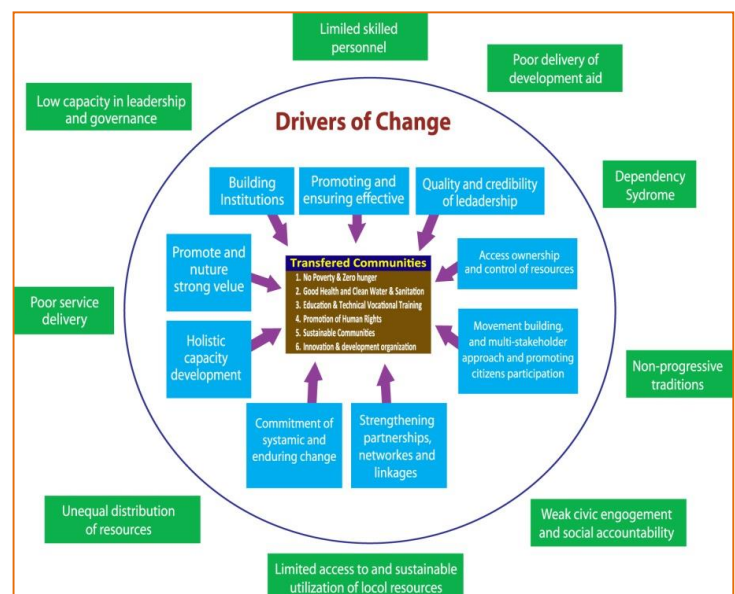

The decision making flow-chart of ESDO: General Committee ► Executive Committee ► Executive Director ► Senior Management Team (SMT) ► Central Coordination Unit (CCU) ► Regional Coordination Unit (RCU) ► District Focal Team (DFT) ► Upazila Focal Team (UFT).

8. Target Group

We work with poor, marginalized, and disadvantaged groups and communities, especially with women, children, ethnic minorities and char & slum dwellers as our primary target group in order to improve their livelihoods. We also keen to work with organized communities seeking assistance to uplift themselves in a sustainable manner. We strongly believe in the ability of people and communities to identify their needs and drive their own development agenda. So, we facilitate individuals and communities to develop their capacity to access information, technologies, and resources in order to ensure sustainable livelihood improvement through their own efforts. We raise funds from a number of different donors and government to implement projects and programs to reach out the target people and communities with our quality services. We identify our target area, people, and communities according to individual project goals and objectives using valid systematic methods and empirical evidence. Taking in to account the individual project provisions, we deliver our services and interventions including micro-finance according to needs of the community through noble approaches.

9. Theory of Change

We believe that systemic and enduring change is possible when communities are able to initiate and drive their own development agenda. If their capacity is built they can bring changes in systems to access basic rights and services through working with government and other actors as well as harness and grow their own resources. We therefore, invest in capacity building to enhance community-led initiatives to create a firm basis for sustainable development and social justice. Our theory of change mainly focuses on 2 aspects; i) capacity building of poor people with a particularly attention to women, young and disadvantaged groups and ii) changes in systems that work for poor.

10. Our Values & Principles

Transparency: We believe in honesty. We want our work to be as visible as possible and maximum access to information regarding the management of resources and the impact of our actions, in pursuit of the highest level of social and economic accountability to encourage everyone to join us in our vision.

Social commitment: We seek an equitable society, in defense of human dignity, working together to build relationships based on fairness and solidarity between peoples, individuals, and cultures.

Participation: We believe in collective decision making, involving all stakeholders, especially underprivileged people, and given the priority to children, ethnic minorities, and women without discrimination. We also foster a participatory culture within our organization.

Equity and Equality: Our actions aim to achieve justice in social arrangements and to promote people's ability to enjoy their freedom. Our commitment is to address the inequalities and prevent the poorest and most marginalized people through a people-centered approach.

Non-discrimination: Our work is built upon the belief that all people should have the opportunity to fulfill their rights, irrespective of their own or their families' national, ethnic, or social origin, language, religion, political opinion, economic position, differences in ability, or any other status.

Respect: We recognize and defend the richness of human diversity as an essential value for social cohesion, peace, and respect for the dignity of all people.

Integration: We will work for holistic development for the underprivileged people along with other development actors.

Commitment and Dynamic Spirit: We believe in dedication and hard work to achieve our vision. We have the capacity to adapt and be creative in our response, seeking innovation and quality in our actions.

Developing Everyone: We believe in empowerment rather than dependency. We try to develop everyone to have the knowledge, attitude, and practice they need to become positive change-makers

Innovation: We want to promote change through innovative interventions and creative methods, to shine a light on ignored issues. We have a culture of improving ideas from the grassroots. We are resilient and view failure as something to learn from and do better next time.

16. Vision 2030:

Reach out 10 million people directly in 51 districts with a particular target to poor and vulnerable of Bangladesh with our quality services by the year 2030.

17. Summary of the Strategic Plan:

ESDO followed the Sustainable Development Goals (SDGs) and considering the SDG goal we addressed in local level through different programs. All of our achievements and significant strides in the field of human and income poverty would not have been as successfully achieved without the active participation of the many actors involved, including the direct participants, duty bearers, development partners, private sector actors, network and alliance members. Through the effective participation, learning sharing, capacity building, proper documentation, and appropriate community based monitoring and feedback mechanism ESDO have achieved a great success and significantly contributed in reducing income and human poverty within the working area of ESDO. We have continued to play the role of a catalyst in mobilizing and empowering the marginalized community through increased range of programs and activities to address the root causes of issues like poverty, deprivation, exploitation, and abuse that hamper the realization of their civic and human rights. Considering the SDGs & ESDO's Vision & Mission the programming goal sets five strategic priorities towards developing pathways for ending poverty and promoting shared prosperity in a sustainable manner. This includes:

Goal-01: No Poverty & Zero Hunger (aligned with SDG-1: End poverty in all its forms everywhere and SDG-2: End hunger, achieves food security and improved nutrition, and promotes sustainable agriculture).

Goal-02: Good Health, Clean Water & Sanitation (aligned with SDG-3: Ensure healthy lives and promote well-being for all at all ages, & SDG-6: Ensure availability and sustainable management of water and sanitation for all).

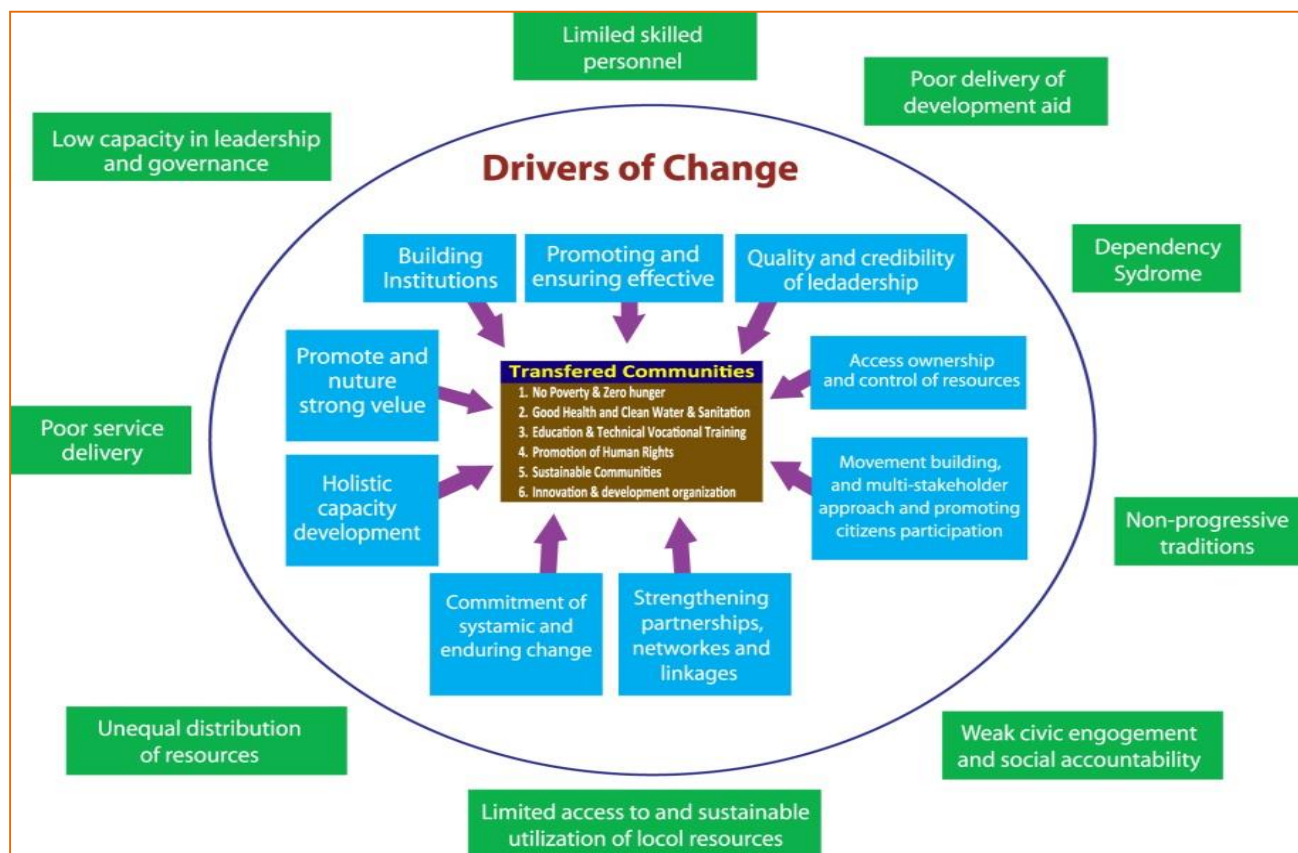

Goal-03: Education & Technical Vocational Training (SDG-4: Ensure inclusive and equitable education and promote Life-long learning opportunities for all and SDG-8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all and SDG-9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation).

Goal-04: Gender Equality, Child Protection & Promotion of Human Rights (SDG-5: Achieve gender equality and empower all women and girls and Goal, SDG-10: Reduce inequality within and among countries, SDG-16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all, and build effective, accountable and inclusive institutions at all levels).

Goal-05: Sustainable Communities, Climate Action & Promotion of Affordable Clean Energy (SDG-7: Ensure access to affordable, reliable, sustainable, and modern energy for all and SDG-11: Make cities and human settlements inclusive, safe, resilient, and sustainable. SDG-12: Ensure sustainable consumption and production patterns, SDG-13: Take urgent action to combat climate change and its impacts, SDG Goal 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development, SDG Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss.

18. Our Theory of Change (ToC):

We believe that systemic and enduring change is possible when communities are able to initiate and drive their own development agenda. If their capacity is built they can bring changes in systems to access basic rights and services through working with government and other actors as well as harness and grow their own resources. We therefore, invest in capacity building to enhance community-led initiatives to create a firm basis for sustainable development and social justice. Our theory of change mainly focuses on 2 aspects; i) capacity building of poor people with a particularly attention to women, young and disadvantaged groups and ii) changes in systems that work for poor.

19. Our Monitoring, Evaluation, and Learning (MEL) system:

ESDO followed the Monitoring, Evaluation and Learning (MEL) system is used as a management tool to track ESDO inputs process, outputs and activities to monitor whether these are being in line within the operational guideline and expectation of the ESDO management. Moreover, ESDO has in-house MIS unit to track project progress effectively and efficiently.
